PROFESSIONAL SUMMARY

Computer Science (Artificial Intelligence) undergraduate and Java Full-Stack Developer with hands-on experience building applications using Java, Spring Boot, REST APIs, MySQL, and the MERN stack (MongoDB, Express.js, React, Node.js). Strong foundation in Data Structures and Algorithms, OOP, SDLC concepts, DBMS, Operating Systems, and Computer Networks, with 500+ DSA programs practiced in VS Code, including 250+ LeetCode and 50+ GeeksforGeeks problems. Built 5 full-stack and AI-powered projects featuring secure REST APIs (Spring Security, JWT, role-based access control), unit testing (JUnit, Mockito), and Docker-based delivery. Seeking a Software Engineer role.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science / Artificial Intelligence Expected 2027

Parul Institute of Technology | CGPA: 7.1

Class XII (Higher Secondary): 65% | Class X (Secondary): 73%

TECHNICAL SKILLS

- **Programming Languages:** Java, C++, JavaScript, SQL
- **Backend:** Spring Boot, Spring Framework, Spring Security, JWT, REST APIs, JPA/Hibernate, Node.js, Express.js
- **Frontend:** React, HTML, CSS, JavaScript (MERN Stack)
- **Databases:** MySQL, MongoDB
- **Testing & API Tools:** JUnit, Mockito, Postman
- **Tools, DevOps & Cloud:** Git, GitHub, Maven, Docker, AWS (Cloud Practitioner Essentials), VS Code
- **Concepts & Practices:** SDLC, OOP, RESTful API Design, Authentication & Authorization (JWT, RBAC), Unit Testing, Database Design
- **Core CS:** Data Structures & Algorithms, OOP, Operating Systems, Computer Networks, DBMS, System Design
- **Machine Learning:** Supervised & Unsupervised Learning, Data Preprocessing, Feature Scaling, Model Evaluation; Linear/Logistic Regression, Decision Trees, Random Forest, K-Means

PROJECTS

Smart Banking & Transaction Management System | *Java, Spring Boot, React, MySQL, JWT, Docker*

- Developed a full-stack banking app for customer, account, and transaction management using Java, Spring Boot, React, MySQL.
- Implemented Spring Security with JWT authentication and role-based access control to secure banking APIs.
- Designed RESTful services with JPA/Hibernate for account management and transaction processing, with input validation to maintain data integrity.
- Verified APIs with Postman and wrote unit tests with JUnit and Mockito; managed builds with Maven, version control with Git, and packaging with Docker.

Interview Pro — AI-Based Interview Preparation Platform | *Java, REST APIs, AI Integration*

- Built an AI-powered interview platform with resume analysis, actionable feedback, coding practice, and virtual interviews.
- Implemented a live coding room supporting two programming languages and audio-based interview simulation via REST APIs.
- Applied secure API key management and modular backend services for AI features.

Campus Micro Job Platform — SaaS Web Application (Major Academic Project) | *MERN Stack: MongoDB, Express.js, React, Node.js*

- Built a SaaS-style full-stack platform connecting campus students with micro-job opportunities using the MERN stack.
- Developed RESTful APIs with Node.js and Express.js, and a responsive React frontend, with MongoDB for data storage.
- Implemented job posting, application workflows, authentication, and role-based access control for students and recruiters.

Personal Portfolio Website | *React, JavaScript, HTML, CSS*

- Developed a responsive portfolio showcasing skills, projects, certifications, achievements, and contact details.

ISKCON Community Website | *HTML, CSS, JavaScript*

- Developed a dynamic community website for events, Yatra schedules, and festival updates.
- Integrated a donation module and administrator-controlled scheduling for dynamic content management.

CERTIFICATIONS

- AWS Academy Graduate — AWS Cloud Practitioner Essentials, Amazon Web Services (Aug 2025)
- NPTEL — Computer Networking
- IBM SkillsBuild — Machine Learning

ACHIEVEMENTS

- Practiced 500+ DSA programs in VS Code (Java/C++); solved 250+ LeetCode and 50+ GeeksforGeeks problems.
- Earned 1 Star on HackerRank; independently built 5 full-stack and AI-powered projects.
